## CAR SHORTAGES.

President Hill Estimates \$5,000,000,000  
Necessary for Relief—Inland Water-  
ways.

EDITOR NEWS:—Thanking you in  
advance, the Publicity Department of  
the National Rivers and Harbors  
Congress asks space for the following  
article in your columns. Recurring  
car shortages are inevitable, with each  
succeeding shortage more costly to  
producer and consumer.

### The One Means of Relief.

On October 27th the car shortage  
amounted to 36,000 cars, an increase in  
the short space of two weeks from a  
shortage of 23,000 reported on Oct-  
ober 7th, with the certainty of further  
decrease in the number of freight cars,  
a fact which shipper and receiver must  
face and for the added cost which the  
entire country must pay. The fact  
that the great railway systems are plac-  
ing orders for more cars gives no sign  
of present relief, nor does the fact argue  
for relief in the future. It is always to  
be remembered that the growth of trade  
and commerce far outstrips the efforts of  
the railways to keep pace with it. To  
believe otherwise would be to deny the  
patent facts of past growth, so enormous  
and so continuous, as to call from  
President Hill the statement that it  
would cost the railways of the country  
the expenditure of \$1,000,000,000 annu-  
ally for five years to come up to the  
demands of trade and commerce.

It was a frank confession. But it  
was a confession which carries its own  
refutation with it. While the railways  
were engaged in their expenditure of  
\$1,000,000,000 annually, the country  
would be developing at a rate even  
greater, and the catching up of the  
railways could be accomplished only  
on the impossible condition that the  
trade and commerce of all sections of  
the United States should remain at a  
standstill.

There is but one method through  
which relief from car shortages can be  
had. That method is in the improve-  
ment of the inland waterways of the  
country. With the inland waterways  
improved, the additional facilities de-  
manded by shippers by rail could be  
afforded. The fact of enormous de-  
velopment, and the fact that with each  
year the car shortages grow more serious  
and more costly and disastrous, are the  
surest guarantee that there are freight  
offerings amply sufficient in volume to  
tax the capacity of both means of  
transportation, and that the relief  
which shipper and receiver demand,  
would enure to the relief of the railway.

There cannot, in the nature of things,  
be hostility in competition between the  
river and the rail. Last year the upper  
Ohio held in leash for more than six  
months 15,000,000 bushels of coal which  
the manufacturing interests of the  
middle and lower Ohio needed and  
could not have, because of the con-  
tinued low water in the Ohio. At  
Odgen, in Utah, there are now 75,000  
tons of sugar beets awaiting the time  
when the railway can handle them.  
Because of low water in the Ohio the  
15,000,000 bushels of coal were value-  
less. So are the 75,000 tons of sugar  
beets, with the lack of value extending  
to the labor that would have been em-  
ployed in the factories if the coal had  
been received or if the sugar beets could  
be moved.

Without means of transportation  
production is a waste of time and  
money. With improvement of the  
waterways production would be stimu-  
lated because of the certainty of reach-  
ing a market. The proposition is self  
evident, but it cannot be brought to  
accomplishment without the adoption  
of a settled policy on the part of the  
Federal Government, such as the  
National Rivers and Harbors Congress  
advances, and such as must, eventually,  
be adopted by the Congress of the  
United States. The coming session of  
the Congress at Washington on Decem-  
ber 8, 9 and 10, will outstrip its  
predecessors in the fact that it will  
assemble with the knowledge that its  
platform:—"A Policy; not a Project"—  
meets with the cordial approval of all  
interests, with only persistence needed  
to produce the desired result.

### Lived 152 Years

Wm. Parr—England's oldest man—  
married the third time at 120, worked  
in the fields till 132 and lived 20 years  
longer. People should be youthful at  
80. James Wright, of Spurlock, Ky.,  
shows how to remain young. "I feel  
just like a 16-year-old boy," he writes,  
"after taking six bottles of Electric  
Bitters. For thirty years Kidney  
trouble made life a burden, but the first  
bottle of this wonderful medicine con-  
vinced me I had found the greatest  
cure on earth." They're a godsend to  
weak, sickly rundown or old people.  
Try them, 50c at All Druggists.

## THE ORANGE MARKET.

Exchange Advises Closing of Packing  
Houses for One Week.

The orange market throughout the  
North and East has gone to the dem-  
onstration how-woos, or words to that  
effect. The exchange reports recent  
sales as follows:

St. Louis, 16th—average for oranges,  
\$1.52.  
Cleveland, 17th—average for oranges  
\$2.07; average for grapefruit, \$3.30.  
Boston, 16th—\$1.25 to \$2.20.  
Pittsburg, 17th—oranges, \$1.60;  
grapefruit, \$2.72; satsumas, \$1.44.

On the 26th, the management of the  
exchange advised the closing of packing  
houses for one week. Following this  
advice, the shipments from the DeLand  
Sub-Exchange have been cut down im-  
mensely, but the packing house has not  
closed, as some growers insist on making  
shipments.

The fruit is very late this year, owing  
to the dry weather, and little of it is fit  
to eat. Some people will buy sour  
oranges, but few want them. If we  
could get a little rain, the fruit would  
sweeten up. Growers should hold back,  
let the fruit ripen up and let the stock  
on hand in the markets be cleaned up.

The reports in the office of the De-  
Land Sub-Exchange are open to the  
public. The management wants the  
people to learn to use these reports, and  
benefit by them. Even those growers  
who are not shipping through the ex-  
change are welcome to the information  
contained in these reports. A slack-up  
in shipments—whether they are being  
made by members of the exchange or  
not—will be to the benefit of all.

### FOURTEEN "BLIND TIGERS"

Sheriff of Leon County Makes A Rich  
Haul.

Tallahassee, Nov. 22.—That prohibi-  
tion does not prohibit was thoroughly  
emphasized here this morning, when  
Sheriff Houston arrested fourteen peo-  
ple who were accused of operating as  
many "blind tigers" in Leon county.

Although Leon county is supposed to  
be "dry," there has been a great quan-  
tity of cheap booze sold from which  
the county derived no financial benefit.

Croup is most prevalent during the  
dry cold weather of the early winter  
months. Parents of young children  
should be prepared for it. All that is  
needed is a bottle of Chamberlain's  
Cough Remedy. Many mothers are  
never without it in their homes and it  
has never disappointed them. Sold by  
All Dealers.

### The New Obsession.

Oh, it's motoring here and it's motoring  
there,  
It's motoring, motoring, everywhere.  
The babies in motoring carriages go,  
The kids soon will coast on the silvery  
snow

In automobiles up steep automoslides  
In wildly hilarious automorides.  
Our dancers are dancing gay automojigs.  
Our doctors drive round in their auto-  
mogis;  
And those who would perch on fame's  
highest bars  
Now hitch up their wagons to automo-  
stars.

The farmer is smiling his harvest to gain  
When loading his hay on his automo-  
wain.

Or scarring the earth with his automo-  
plow.  
Or milking his gasoline automocow;  
Or sending the choreman with automo-  
legs

To gather each morn the fresh automo-  
eggs  
'Neath the automohens in the automo-  
coop.

To the tune of the rooster's shrill auto-  
mowhoop,

While he who plays golf will rejoice at  
the call  
Of the automocaddy who chases his ball.

The automocamel will soon lead the van  
From Automosheba to Automodan,  
And down in the kitchen, by hook or by  
crook,

Some day we'll rejoice in an automocook  
Who more than a week in the household  
will stop

To joy in the jests of the automocop.  
Yes, it's motors by day and it's motors  
by night;

Wherever we look there's a motor in sight  
All over the land they are quite the  
fromage

And every old barn has become a garage.  
HORACE DODD GASTIT.—Suc-  
cess Magazine, December.

When a cold becomes settled in the  
system, it will take several days' treat-  
ment to cure it, and the best remedy to  
use is Chamberlain's Cough Remedy.  
It will cure quicker than any other, and  
also leaves the system in a natural and  
healthy condition. Sold by All Dealers.

## BIG COLONY FOR VOLUSIA.

Chicago Man Buys 35,000 Acre Tract  
Below Bunnell.

Mr. E. C. Howe, of Chicago, is spend-  
ing a few days in the city and has closed  
a deal by which he becomes the owner  
of a thirty-five thousand acre tract of  
rich farming land across the Volusia  
county line and below Bunnell. The  
big tract is to be divided up into farms  
and colonized at once. The deal was  
made through a Daytona real estate  
firm.

Mr. Howe, Mr. J. F. Lambert, Mr. I.  
L. Moody and W. A. MacWilliams, Esq.,  
made the trip to the tract yesterday and  
back in an automobile. The trip to  
Bunnell was made in two hours and  
fifteen minutes, which is considered  
excellent time. They report the roads  
as passable and very good, although  
there are some soft spots.—St. Augus-  
tine Record, Tuesday.

### Not That Kind.

Aunt Emily, an old colored woman,  
was given two Maltese kittens, and asked  
the neighbors to help her name them.  
Uncle Eph, who lived across the street,  
shuffled over with a suggestion that they  
be named Cook and Peary. "Look a  
yere, Eph," replied Aunt Emily, "does  
you want to 'sult those animals of mine?  
Why, them ain't polecats."—HARVEY  
PEAKE, in Success Magazine for Decem-  
ber.

## Daytona Private Hospital and Sanitarium.

Every facility for the proper treat-  
ment and care of medical and surgical  
cases. Electrical appliances, trained  
nurses, quiet surroundings. Special  
attention given to all patients. Terms
